2. BOOK REVIEW: Each student will prepare a review of the textbook *Exploring the Worship Spectrum* by Paul Engle (editor). The review should include the following: author and bibliographic entry; a brief summation of the material presented from each of the six divisions of the book addressing the various perspectives; and a personal “take away” section in which the student provides commentary on helpful aspects gleaned from each section. Consult “Guidelines for a Book Review”.

Group presentations will focus on engaging the class in a discussion of the assigned topics, which will occur in BB. Each person person must interact with 5 other presentations in BB discussion to receive full credit for this assignment.

4. WORSHIP ASSESSMENT CRITERIA: Based on course readings and sample assessment tools as well as outside resources, students will develop a 2 – 3 page worship assessment instrument to be used in the observation and written evaluation of two distinct worship services (see below).

DUE: August 7

5. WORSHIP OBSERVATIONS: Attend and construct a written observation of two distinct worship services (e.g., Jewish, Eastern Orthodox, Roman Catholic, Charismatic, Vineyard, Episcopalian). Using the biblical worship assessment tool developed (see above), each student will attend and observe both an aesthetic and a kinesthetic worship service. Observe as a sincere “seeker of God” and be open to be encountering His Presence. Strengths and weaknesses as well as recommendations for improvement will be reported in separate 1500-word evaluation essays (one for each of the two services). An on-site observation of the worship services is required rather than video observation. A rubric associated with this item reflects information presented in the textbooks, online lectures, and outside sources. The rubric will be the primary instrument that determines the student’s grade for this item.

DUE: Aesthetic Observation August 21

Kinesthetic Observation Due: Sept 11

6. DESIGN WORSHIP SERVICES: Design three distinct worship services using each of the three following models: aesthetic; kinesthetic; and blended, using a theme-enhanced approach. Information on these models will be provided in course lectures and *Holy Gatherings*. Designs should include a worship guide outline as well as a double-spaced, 1200 word commentary explaining how the particular worship elements are used and how they should flow in the particular worship service plan.

Issues such as logistics, sequence of events, planning intention, and potential impact upon worshipers should be noted in the plan. A rubric associated with this item reflects information presented in the textbook, online lectures, and outside sources. The rubric will be the primary instrument that determines the student's grade for this item.
