Title: Basics of Ethical Practice In Counseling

Description: This workshop is designed to refresh the participant's memory of key principles of ethical practice. Special focus will be given to current issues which frequently result in ethical complaints being levied against therapists with the licensing board. Case scenarios will be utilized to reinforce and clarify principles of ethical practice. The ACA, AAMFT, and AACC Code of Ethics will be utilized in this session.

Objectives:

1. Participants will review ethical practices in counseling.
2. Participants will process issues frequently leading to complaints levied against professional counselors.
3. Participants will apply ethical codes and best practices to case scenarios.
