* Once money from a loan is placed on your NOBTS account, any immediate balance, such as tuition, fees, and rent, must be paid first. Any credit that remains can be distributed to the student to cover other expenses that were approved during the loan certification process. If money from the loan is not used for an educational purpose, NOBTS must return the money to the loan company, which will usually serve to reduce the principle amount owed by the student.

¹ **Tuition:** \$ _____ (per Credit Hour) x _____ (# of Credit Hours) = \$ _____
