Description

In this seminar students will be introduced to the literature and techniques of doctoral research. Special attention will be given to the development of research proposals and the presentation of research, including individual guidance in the form and style of research writing.

The seminar is divided into three components: an introduction to doctoral research, an introduction to research methodologies, and a writing workshop. These components will meet according to the following schedule:

January 25-29	Online correspondence via e-mail
February 18	Introduction to Doctoral Research
April 8	Introduction to Research Methodologies
April 29	Statistical Techniques and Writing Workshop

Seminar meetings will be held 10:00 am - 6:00 pm each scheduled day.

Objectives

1. The student will understand the basic principles of research.
2. The student will be introduced to various types of research.
3. The student will produce a seminar paper during the semester to be evaluated as to form and style at the end of the semester.

2. Read *Writing Empirical Research Reports*.
3. Read *The Craft of Research*.
4. Read *Dissertations and Theses from Start to Finish*

6. Contact telephone interviews with a three persons, who have a doctoral degree in Christian education, from the following categories: A Christian education professor at a college or seminary, a denominational worker, and a pastor or staff member at a large church. Discuss the value and opportunities of doctoral work in relationship to Christian education in general and their vocation specifically. Discuss challenges and limitations of holding a doctoral degree in their job and ministry contexts. Discuss suggestions they have for students to strengthen their doctoral work and made it more marketable. Each of these three interviews should be summarized in a two page, single spaced submission.

1. Read *Practical Research: Planning and Design, 8th ed.*, chapters 7-11.
2. Find one article from three different respected journals in your field of Christian education, and analyze the structure of each article in light of your readings. Observe how each author handles the elements of research and how arguments are made and supported. If you have access to papers presented at scholarly meetings in your field, you may include one paper among the three articles. Bring a copy of each article to class.
3. Complete the reading of Yount's book *Research Design & Statistical Analysis in Christian Ministry* available at <http://www.napce.org/yount.html#research>.
